Dear Parents/Carers

I am writing to advise you that our school currently has students who are receiving medical treatment for a range of significant medical conditions. These students have a compromised immune system making them more vulnerable to disease.

It is important that you do not send your child to school if they have an infectious disease such as the measles, chickenpox or influenza. In this case your child should stay at home until no longer contagious. For more information about how long an illness is contagious, contact your GP or visit the NSW Health website at www.health.nsw.gov.au.

If your child has an infectious disease please contact Mrs Kalatzis-Vlahakis immediately. This will allow the school to respond appropriately.

We appreciate your cooperation. Please do not hesitate to contact me if you have any questions.

Yours sincerely

Mr D J Robson
Principal

Mrs VKalatzis-Vlahakis
Head Teacher Welfare
